

# POSITION DESCRIPTION

**POSITION TITLE:** Consultant (Red, Offensive Security)

**LOCATION:** MALAYSIA  PHILIPPINES  VIETNAM

## ASW COMPANY OVERVIEW

AS White Global (ASW) is an Australian owned company with offices in Sydney, Vietnam, the Philippines, and Malaysia. We are specialists in unified offshore staffing solutions and have been working in Southeast Asia for the past decade. Our ASW employees are part of our very special ASW family and culture, but also integrate into our client's brand and team – effectively you get two work families!

Working in our local ASW company culture means you will develop strong friendships and great support networks. You will be part of a positive and engaged environment, participate in team and company events, and have access to global training and development opportunities. In addition, you will get exposure working with our international clients and build on your existing skill sets.

## CLIENT OVERVIEW

Our team is made up of Information Security professionals coming from all types of professional and personal backgrounds - we have a unique, international environment and believe in having fun at work. We offer benefits to help you in your career progression and in addition, we have training and certification opportunities, flexible hours, a great workplace environment, a culture focused on helping you become a T-shaped consultant while working in a technically strong, diverse team.

Our Red Team, Offensive Security Consultants work with organisations and technical teams to perform a variety of assessments and provide practical advice to keep them secure. Red team members are generally familiar with and apply themselves to most aspects of cybersecurity but specialize in web application security, code reviews, architecture design, network security, attack simulations or even specialist fields such as mainframe or SCADA systems. They help to ensure cybersecurity issues and identified along with their associated risks, and guide organisations to manage this risk in a practical manner.

This role will also be responsible for guiding junior talent to become cybersecurity experts as well.

## CLIENT POSITION DESCRIPTION

### Key Responsibilities

- Conducting various security assessments for various technology types and environments, with a focus on penetration testing
- Doing project management and developing security test plans around larger complex projects
- Coordinate with clients and other subject matter experts in different fields, as required in projects
- Drive and develop capabilities in specific security areas, (Eg. Secure system architecture design in the cloud)

A suitable candidate would have some or most of the following attributes:

- Demonstrate deep understanding of penetration-testing methodologies, techniques, and remediation
- Be able to identify vulnerabilities in web apps/web APIs, and pick up issues in code through manual source code reviews/static code analysis.

# POSITION DESCRIPTION

- Understand threats in different environments, from cloud, to endpoints or IoT systems. Perform review of hardening controls for such systems.
- Think on your feet and adapt to new threats and technologies as they develop.

## Experience and Certification

- 1- 5 years of client facing consulting experience.
- Must have - OSCP and CREST CRT
- Nice to have: OSCE or CREST CCT or other specialist certifications

## ASW Offers

- We are experts in offshoring partnerships. This means that you will be a trusted member of the ASW family, and get access to our great benefits, plus you also get to work directly with one of the clients.
- In our unique English-speaking environment, you can practice and enhance your English with peers and international client teams based in either Australia, UK, US or NZ.
- Get global access to Learning & Development programs.
- Great work-life balance.
- Competitive remuneration.
- Excellent medical benefits.
- Great Paid Leave entitlements.
- Company parties/events, future travel opportunities and other exciting activities.
- Ongoing career opportunities.
