ASW COMPANY OVERVIEW

AS White Global (ASW) is an Australian owned company with offices in Sydney, Vietnam, the Philippines, and Malaysia. We are specialists in unified offshore staffing solutions and have been working in Southeast Asia for the past decade. Our ASW employees are part of our very special ASW family and culture, but also integrate into our client's brand and team – effectively you get two work families!

Working in our local ASW company culture means you will develop strong friendships and great support networks. You will be part of a positive and engaged environment, participate in team and company events, and have access to global training and development opportunities. In addition, you will get exposure working with our international clients and build on your existing skill sets.

OVERVIEW

Our client is Australia's leading finance broker aggregator and equipment leasing business for small to medium-sized enterprises. We are looking to take our successful broker aggregation platform to the next level of its growth and are assembling a team of talented and hardworking individuals who like to be in control of their work and solve problems together.

Built on Angular and .NET Core and hosted in Azure, you will have the pleasure of working on a modern tech stack, gain valuable experience in the financial services industry, and build great long-term relationships with the Australian team.

KEY RESPONSIBILITIES

Your daily responsibilities are:

- Collaborate closely with the team to understand business requirements and expected system behaviours.
- Design, develop, and maintain automation tests that correctly covers expected system behaviours.
- Design tests according to best practices in software development and automation testing.
- Analyse root cause of failing tests in a timely manner and address appropriately e.g. identify failing tests as bugs and ensure developers are aware, identify failing tests as an issue with the tests and fix accordingly, etc.
- Ensure automation tests follow our client's coding standards and guidelines.
- Manage the version control for automation tests.
- Manage the Azure DevOps pipelines for automation tests.
- Attend the relevant Agile ceremonies (e.g. daily stand up, retrospective, etc.).

POSITION DESCRIPTION

QUALIFICATIONS AND EXPERIENCE:

Ideally you will have the following experience and skills:

- 2-4 years of experience in automation testing of .NET web sites and web APIs.
- 2-4 years of experience in SpecFlow, Selenium, or equivalent automation testing technology.
- 2-4 years of experience in .NET, Entity Framework, SQL.
- Strong attention to detail e.g. to business requirements, system behaviours, acceptance criteria, testing, etc.
- Strong analytical skills e.g. identifying root cause of failing tests.
- At least 1 year working in an Agile / Scrum environment.

Technologies:

- The more experience in the following technologies, the more favourable:
- SpecFlow, Selenium.
- .NET, Entity Framework, SQL.
- HTML, CSS, JSON.
- Postman or equivalent tool.

ASW OFFERS

- We are experts in offshoring partnerships. This means that you will be a trusted member of the ASW family, and get access to our great benefits, plus you also get to work directly with one of clients.
- In our unique English-speaking environment, you can practice and enhance your English with peers and international client teams based in either Australia, UK, US or NZ.
- Get global access to Learning & Development programs.
- Great work-life balance.
- Competitive remuneration.
- Excellent medical benefits.
- Great Paid Leave entitlements.
- Company parties/events, future travel opportunities and other exciting activities.
- Ongoing career opportunities.
