POSITION TITLE: Data Engineer

ADVERT TITLE: Data Engineer

LOCATION: MALAYSIA PHILIPPINES VIETNAM

ASW COMPANY OVERVIEW

ASW is creating the world's most talented international family through hiring and growing talent into long-term careers with Australian companies. ASW is a recruitment and talent specialist, that partners with Australian companies to help them build highly capable international teams. We enable Australian companies to meet their business goals by accessing and retaining premium talent in emerging markets and giving that talent the opportunity to grow, learn and develop. Together we embed international teams into respected Australian businesses, both functionally and culturally, to deliver enduring and transparent people solutions.

THE OPPORTUNITY

Our client, Australia's top provider of health and work solutions, is looking for an Azure Data Engineer for Commercial Insights team, to be based in the Vietnam office.

Specific experience in Azure Databricks, Azure Data Factory and supporting services to drive the design and implementation of a new Cloud based Data Lakehouse.

KEY RESPONSIBILITIES

- Design and implement the Cloud Data Lakehouse to support reporting across the group using best practices.
- Contribute to the development of the data engineering and provide technical expertise in Azure Data Platform
- Develop ELT pipelines in and out of data lake using Azure Data Factory, Databricks and Delta Lake.
- Build data pipelines/notebooks to load and transform data to Databricks Lakehouse house environment
- Integrating Data to the cloud and on-prem hosted services
- Liaise and work closely with analytics team and business stakeholders to deliver business reporting needs
- Help develop, update and maintain data integration frameworks
- Help manage security and permission in the Cloud environment.

POSITION DESCRIPTION

SKILLS, EXPERIENCE & QUALIFICATION

- Tertiary qualifications in Information Technology
- 2+ years of commercial experience working in MS Azure Data Platform (Azure Databricks, Azure Data Factory, Azure Data Lake)
- Experience working with Databricks Data Lakehouse architecture using Delta Lake, Delta tables and Unity Catalog
- Solid working experience in Python, Pyspark and SQL
- Experience working with Azure DevOps/Git, PowerShell
- Knowledge in Microsoft full BI stack (MS SQL, SSIS, SSAS-Tabular, SSRS) and data warehousing and Power BI.

ASW OFFERS

- A diverse, inclusive, and supportive company culture.
- Competitive remuneration.
- Opportunity to collaborate and work with global clients and stakeholders.
- Medical benefits.
- Great Paid Leave entitlements.
- Team outings, travel opportunities, company parties/events, and other exciting activities.
- Exposure to an international environment, working with people across Malaysia, Vietnam, the Philippines, and Australia.
- Industry and role-related training.
- Ongoing career opportunities.
