POSITION TITLE: Software Engineer (Cloud Migration)

ADVERT TITLE: Software Engineer (Cloud Migration)

LOCATION: MALAYSIA PHILIPPINES VIETNAM

ASW COMPANY OVERVIEW

ASW is creating the world's most talented international family through hiring and growing talent into long-term careers with Australian companies. ASW is a recruitment and talent specialist, that partners with Australian companies to help them build highly capable international teams. We enable Australian companies to meet their business goals by accessing and retaining premium talent in emerging markets and giving that talent the opportunity to grow, learn and develop. Together we embed international teams into respected Australian businesses, both functionally and culturally, to deliver enduring and transparent people solutions.

THE OPPORTUNITY

Our partner is a top Australia-based leading in medical examination and health management company. Over 3000+ National Clinic Network, with 1200+ Medical Specialist around the world and 300+ locations with operations in the United States, Canada, United Kingdom and Australia always online 24/7.

Their Business Services Delivery department is actively focused on building web. Currently, they are looking for a Software Engineer to join the software engineering team to create modern digital software products. The team uses cutting-edge technologies to build high performing, scalable cloud-based solutions in a safe, secure, and agile fashion.

KEY RESPONSIBILITIES

- Designing, developing, developer testing, and delivering custom software solutions whilst collaborating with stakeholders.
- Ensuring code produced is to a high quality and follows our coding guidelines.
- Reviewing code from other team members and critically assessing the code for high quality design and adherence to our coding guidelines.
- Actively contribute to solution design discussions and present technical design options for consideration.
- System configuration and integration.
- Maintaining and supporting existing software.
- Support team members to solve application related issues.

SKILLS, EXPERIENCE & QUALIFICATION

- Between 3-5 years' experience in a similar role.
- A passion for SOLID Principles, Clean Code, and solution design.

POSITION DESCRIPTION

- Technologies and Frameworks - ASP.NET Core, MVC4, C#, Vue.js, HTML5, CSS3+, JavaScript, LINQ, Entity Framework, TSQL, ASP.NET (Web Forms).
- Tools - Visual Studio, SQL Server Management Studio, ReSharper, Git
- Experience with Infrastructure as Code tools.
- Have extensive knowledge of Cloud Migration or have done some migration projects before
- Have strong experience working with Cloud, especially Azure
- Knowledge/Experience in DevOps will be a huge advantage.
