## ASW COMPANY OVERVIEW

ASW is creating the world's most talented international family through hiring and growing talent into long-term careers with Australian companies. ASW is a recruitment and talent specialist, that partners with Australian companies to help them build highly capable international teams. We enable Australian companies to meet their business goals by accessing and retaining premium talent in emerging markets and giving that talent the opportunity to grow, learn and develop. Together we embed international teams into respected Australian businesses, both functionally and culturally, to deliver enduring and transparent people solutions.

## THE OPPORTUNITY

Calling out a .NET Developer (Mid-level) for a famous insurance company based in Australia! Our client is a leading insurance group that has been managing workers' insurance and injured workers' compensation claims in Australia for 110 years. Currently, they are looking for a .NET Engineer who has both .NET MVC and .NET Core experience as well as experience working in Agile. You will become a crucial part of an interesting project developing a Web-based insurance claims management system for AU client.

## KEY RESPONSIBILITIES

You will report into a SCRUM Certified Team Lead, and work in a small team of Developers and QC Engineers to enhance the current system functionality.

- Developing software using latest Microsoft Technologies such as C#, .Net, Web API...
- Working on the inhouse web application claims management tool – enhancing the functionality for a new insurance partnership and product for the Company
- Researching and identifying root causes of defects and issues
- Following Agile Testing to improve product quality
- Working as part of a team and participating in customer support activities as needed cycle

## SKILLS, EXPERIENCE & QUALIFICATION

- Hands-on in .NET MVC/.NET Core, Entity Framework, Web API, SQL/SQL Server
- Frontend stacks: in HTML, CSS, JavaScript, jQuery, and JavaScript frameworks (e.g., React, Angular)
- Familiarity with Docker and Kubernetes is an advantage
- Knowledge of RabbitMQ and Kendo UI is a plus
- Experience with AI projects is a big plus
- Experience in Agile methodology
- Minimum 3 years in software development with good English communication skills
