POSITION TITLE: Software Engineer

LOCATION:

MALAYSIA

PHILIPPINES

VIETNAM

ASW COMPANY OVERVIEW

AS White Global (ASW) is an Australian owned company with offices in Sydney, Vietnam, the Philippines, and Malaysia. We are specialists in unified offshore staffing solutions and have been working in Southeast Asia for the past decade. Our ASW employees are part of our very special ASW family and culture, but also integrate into our client's brand and team – effectively you get two work families!

Working in our local ASW company culture means you will develop strong friendships and great support networks. You will be part of a positive and engaged environment, participate in team and company events, and have access to global training and development opportunities. In addition, you will get exposure working with our international clients and build on your existing skill sets.

OVERVIEW

Our client is a top salary packaging provider that has a vast experience of thirty years in helping their customers maximise the take-home pay by accessing their pre-tax salary.

This **Software Engineer** position involves participation in the full software development life-cycle and the provision of application support. The workload can be anything from designing a new and better payment processing algorithm through to updating SSRS & Power-BI reports.

KEY RESPONSIBILITIES

Your daily responsibilities are:

- Assisting the Information Technology (IT) Manager with the requirements and design phases of IT projects.
- Developing and testing software applications as part of IT projects.
- Sharing technical knowledge with peers during the development phase of IT projects.
- Expanding and updating knowledge of software development technologies.
- Estimating and tracking their own tasks within an IT project and notifying the IT Manager of progress.
- Attending meetings to discuss IT projects and report on progress.
- Presenting new software applications to other departments and training staff from other departments in the use of these new applications.
- Liaising directly with stakeholders during the development and testing phases of IT projects.
- Deploying and configuring new software applications in the production environment, with the assistance of the Systems Administrator if necessary.
- Maintaining existing software applications.
- Assisting with general IT support if required.

QUALIFICATIONS AND EXPERIENCE:

- Bachelor's degree or equivalent tertiary education in the Information Technology field is preferred
- Minimum of 5 years' experience in a software engineering role

POSITION DESCRIPTION

- Strong experience with the Microsoft platform
- Strong experience with .NET (4.7 and 6), ASP.NET MVC, Winform
- strong experience with React, HTML, jQuery, CSS, JavaScript
- Experience with REST Services
- Experience with SQL Server (2019) and SQL
- Strong English communication skills, verbal and written communication skills
- Previous experience with Azure App Services is helpful.
- Previous experience with Azure Dev Ops and Octopus Deploy/Continuous deployment processes.

ASW OFFERS

- We are experts in offshoring partnerships. This means that you will be a trusted member of the ASW family, and get access to our great benefits, plus you also get to work directly with one of clients.
- In our unique English-speaking environment, you can practice and enhance your English with peers and international client teams based in either Australia, UK, US or NZ.
- Get global access to Learning & Development programs.
- Great work-life balance.
- Competitive remuneration.
- Excellent medical benefits.
- Great Paid Leave entitlements.
- Company parties/events, future travel opportunities and other exciting activities.
- Ongoing career opportunities.
