

POSITION DESCRIPTION

POSITION TITLE:

Data Scientist / Data Science Engineer

LOCATION: MALAYSIA

PHILIPPINES

VIETNAM

ASW COMPANY OVERVIEW

AS White Global (ASW) is an Australian-owned company with offices in Sydney, Vietnam, the Philippines, and Malaysia. We are specialists in unified offshore staffing solutions and have been working in Southeast Asia for the past decade. Our ASW employees are part of our very special ASW family and culture, but also integrate into our client's brand and team – effectively you get two work families!

Working in our local ASW company culture means you will develop strong friendships and great support networks. You will be part of a positive and engaged environment, participate in team and company events, and have access to global training and development opportunities. In addition, you will get exposure working with our international clients and build on your existing skill sets.

CLIENT OVERVIEW

Our partner, an independent, full-service marketing agency passionate about delivering better business results for clients by fusing analytics and creativity. Currently, they are looking for a proven and experienced Junior – Mid Data Scientist/Data Science Engineer to be part of the Analytics Team.

This role will bring exceptional data engineering and data science to an existing Analytics team. We are looking for a proven and experienced Data Scientist with strong data engineering background to help build additional capability.

Passionate about data engineering, data science, machine learning, and deep learning, you are a true problem solver who is always learning and growing. A true team player, you believe in collaboration and helping your team members.

CLIENT POSITION DESCRIPTION

Key Responsibilities

- Responsible for building analytic systems and predictive models as well as experimenting with new models and techniques.
- Interpret and analyze data problems and guarantee data quality and integrity.
- Build, test, and maintain automated ML and data pipelines and scripts using Python and/or Alteryx
- Responsible for the conception, planning, and prioritizing of data projects.
- Adhere to stringent quality assurance and documentation standards using version control and code repositories.
- Extracting data from a different relational database using SQL or other programming languages, online platforms using APIs, web scraping

POSITION DESCRIPTION

- Experience performing root cause analysis on internal and external data and processes to answer specific business questions and identify opportunities for improvement.
- Data manipulation and transformation using Python and/or Alteryx
- Solve business problems using a wide variety of data science techniques. Analyses will be simplistic for some use cases and very advanced for others
- ETL/ELT processes and tools.

Skills, Experience & Qualifications

- Commercial experience as a Data Scientist or related working experience.
- Expertise in data visualization libraries and products (e.g., PowerBI, Tableau).
- Very detail oriented, expected to ensure a high level of quality in report, data, and model analysis.
- Proven skills in translating analytics output to actionable insights and recommendations.
- Solve business problems using a wide variety of data science techniques.
- Excellent time management and communication skills.
- Excellent analytical skills with the ability to provide actionable insights.
- Experience performing root cause analysis on internal and external data and processes to answer specific business questions and identify opportunities for improvement.
- Strong attention to detail.

ASW OFFERS

- We are experts in offshoring partnerships. This means that you will be a trusted member of the ASW family, and get access to our excellent benefits, plus you also get to work directly with one of our clients.
- In our unique English-speaking environment, you can practice and enhance your English with peers and international client teams based in either Australia, UK, US, or NZ.
- Get global access to Learning & Development programs.
- Great work-life balance.
- Competitive remuneration.
- Excellent medical benefits.
- Great Paid Leave entitlements.
- Company parties/events, future travel opportunities, and other exciting activities.
- Ongoing career opportunities.
