LOCATION: MALAYSIA PHILIPPINES VIETNAM

ASW COMPANY OVERVIEW

ASW is creating the world's most talented international family through hiring and growing talent into long-term careers with Australian companies. ASW is a recruitment and talent specialist, that partners with Australian companies to help them build highly capable international teams. We enable Australian companies to meet their business goals by accessing and retaining premium talent in emerging markets and giving that talent the opportunity to grow, learn and develop. Together we embed international teams into respected Australian businesses, both functionally and culturally, to deliver enduring and transparent people solutions.

THE OPPORTUNITY

Our partner is an Australia-based leading communications and Telecom software company, listed on the Australian Stock Exchange since 2006 is looking for a Software Engineer who is responsible for designing, building, and maintaining the application.

This is a hands-on role that will be developing new features for our customers which meet the needs of our business. As a Software Engineer, you are also involved in building with best practices and resiliency in mind, adhering to agile processes and dealing with business and technology stakeholders.

KEY RESPONSIBILITIES

- Development of stable, secure, and well architected code
- To always leave code in a better state than it was when starting.
- Actively seeks to improve the skill level of the team and shares knowledge freely
- Your code is adequately tested prior to production deployment.
- Your approach to work includes an "eagerness to action" outlook to foster early time to market.
- Identifies and escalates issues/risks to leadership early.
- Ensure appropriate consideration is given to testing, security, stability, reliability, and monitoring.
- Drive technical decisions and direction within your team and across platforms owned by the team.

SKILLS, EXPERIENCE & QUALIFICATION

POSITION DESCRIPTION

- Degree in Computer Science/Software Engineering or equivalent
