

POSITION DESCRIPTION

POSITION TITLE: Junior Data Engineer

ADVERT TITLE: Junior Data Engineer

LOCATION: MALAYSIA PHILIPPINES THAILAND VIETNAM

ASW COMPANY OVERVIEW

ASW is creating the world's most talented international family through hiring and growing talent into long-term careers with Australian companies. ASW is a recruitment and talent specialist, that partners with Australian companies to help them build highly capable international teams. We enable Australian companies to meet their business goals by accessing and retaining premium talent in emerging markets and giving that talent the opportunity to grow, learn and develop. Together we embed international teams into respected Australian businesses, both functionally and culturally, to deliver enduring and transparent people solutions.

THE OPPORTUNITY

Join a global leader in innovative healthcare solutions as a Junior MS Data Engineer and be part of a mission to transform healthcare worldwide. With operations across the US, Canada, UK, and Australia, this organization delivers cutting-edge strategies that make a real impact.

In this exciting role, you'll contribute to the design and implementation of advanced Cloud-based Data Lakehouse solutions, harnessing the power of Azure Databricks and AI/ML technologies to drive innovation. If you're passionate about technology and want to shape the future of healthcare, this is your chance to shine in a dynamic and collaborative environment.

KEY RESPONSIBILITIES

- Implement Cloud Data Lakehouse solutions to support group-wide reporting.
- Build ELT pipelines and notebooks using Azure Databricks and Delta Lake.
- Develop and maintain the data engineering framework and Azure Data Platform.
- Collaborate with analytics teams and stakeholders to meet reporting needs.
- Ensure data governance, PII handling, data lineage, and compliance with security standards.
- Support Master Data Management for accurate and consistent data.
- Contribute to project-oriented design, development, and delivery efforts.
- Apply machine learning and AI language modeling to enhance data solutions.

SKILLS, EXPERIENCE & QUALIFICATION

- 1+ years of commercial experience working in MS Azure Data Platform (Azure Databricks, Azure Data Lake)
- Nice to have experience working with Databricks Data Lakehouse architecture using Delta Lake, Delta tables and Unity Catalog.

POSITION DESCRIPTION

- Working experience in Python, PySpark, SQL Query.
- Basic understanding of machine learning (ML) concepts and AI frameworks.

ASW OFFERS

- We are experts in international partnerships. This means that you will be a trusted member of the ASW family, and get access to our great benefits, plus you also get to work directly with one of clients.
- In our unique English-speaking environment, you can practice and enhance your English with peers and international client teams based in either Australia, UK, US or NZ.
- Get global access to Learning & Development programs.
- Great work-life balance.
- Competitive remuneration.
- Excellent medical benefits.
- Great Paid Leave entitlements.
- Company parties/events, future travel opportunities and other exciting activities.
- Ongoing career opportunities.
